

Puzzle Corner

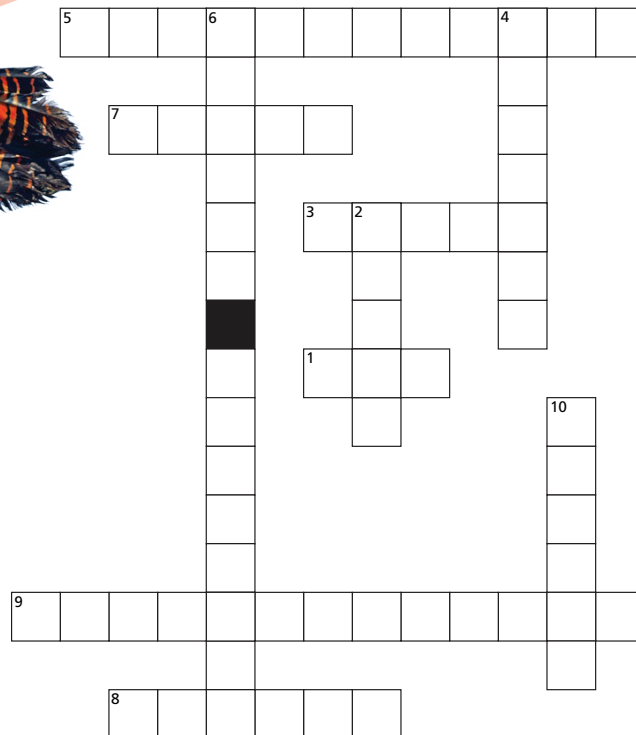

As a conservation charity, nothing makes us happier than feeling we've made a real difference in protecting species from extinction. But we also know none of our vital work would be possible without YOU!

We truly believe the best way to secure the future of nature is together, alongside the wonderful members of our zoo family. We thought what better way to get you inspired about conservation than quiz games!

Put your thinking caps on, sharpen that pencil and be sure to read through the magazine for some handy hints!
