

“Animals in Focus” Photography courses

For owners of an SLR camera

...a camera that has the ability to be used
in full manual mode

The Program

Tour the Adelaide Zoo with Photographer Lindsay Poland, as he takes you through the beautiful surroundings of Adelaide Zoo to share some of the secrets of perfect animal photography.

Learn how to photograph through glass and how to make the wire disappear and a lot more about techniques that will help to enhance your photos and help you to make the most of your camera.

These one-day courses focus mainly on “hands-on” photography

- 6 hours - 10am - 5pm
- 1 hour lunch break – BYO

The two courses vary slightly to cater for the needs of ‘Beginner’ and ‘Advanced’ photographers. Both sessions include theory and practical elements.

NUMBERS ARE STRICTLY LIMITED so BOOK EARLY!

\$140 per course (discount price for attending both courses - \$240)

- Further discounts apply for Zoos SA Members

Course details

Introduction to Animal Photography: SLR Basics

Theory: shutter speed, aperture, film speed – use these techniques to help photograph through glass and make wire disappear!

- Sunday 12th April
- Sunday 24th May
- Sunday 28th June

Enthusiast Photography Day: Advanced SLR

- Sunday 3rd May
- Sunday 14th June

Theory: Combine the technical theory learnt with a greater understanding of composition, available light, good design and watching out for common pitfalls to produce the desired image.
